Your Commander Code

You choose a special code that you can share with a trustworthy friend, that allows you to make use of SMS Commander via text message. To use a command, you need to enter:

your_password.example_command example_parameter

e.g.: if I wanted to get my mother's phone number from my phone, I would type the following in a text message to my phone:

MyAwesomePassword.getContact Mom

Within seconds, if my phone is on, I will receive my mother's phone number in a text message on the phone I used to text my phone.

Gather critical information remotely

.getLocation
.getMissedCalls [integer HowMany]
.getOutgoingCalls [integer HowMany]
.getIncomingCalls [integer HowMany]
